Percentage : 62.82 %

Project

Project Title : "Clone Website of Bite Toothpaste"

Objective : "To develop a fully functional clone of the 'Bite Toothpaste Bits' e-commerce website using React.js and Firebase. This project aims to replicate key features such as user authentication, product display, cart functionality, and seamless integration with Firebase for real-time data storage. The goal is to create a responsive, user-friendly, and visually appealing platform while enhancing skills in front-end development, state management, and cloud integration."
